

to whom it may concern:

I am an avid listener of satellite radio and strongly oppose the NAB's petition 04-160. I pay for the services of satellite radio because they continue to offer the quality, and variety that I no longer found with commercial radio. PLEASE DO NOT ALLOW THE CENSORSHIP of satellite radio!. Satellite radio is an alternative which I( the listener) pay for. Traffic, weather, and other broadcasts are beneficial to my listening enjoyment!. I will continue to follow and support satellite radio!!.
